

# Snake

Snake is the accumulation of over 30 years of Trimax innovation, engineering and customer insight.

Snake is designed for the most demanding conditions in sports turf environments with the unique ability to transform turf into an even carpet of green. From sports fields to golf courses and public spaces, Snakes athletic design articulates and dominates the most intensive environments.

We've seamlessly combined our world class cut and have added articulation capabilities never seen before on a Trimax mower. We believe that what we have created is the best sports turf rotary mower in the world... built for agility, as tough as nails and incredibly versatile, we call it the Trimax Snake.

Snake the product is only part of the equation however. Snake owners benefit from a proven 3 year warranty and genuine Trimax support. As with our other products, when you buy a Trimax, you're part of the Trimax family. This means not only are you well supported by our incredible dealer network and experienced staff, but you have a direct line to the family owned company for usage insights, feedback and any questions you may have.

Talk to us today about the capabilities of Snake in your environment.

Snake	
Cutting Width	3262mm
Overall Width	3410mm
Width (transport mode)	2050mm
Height (transport mode)	1790mm
No. of Blade Spindles	9
Approx. Weight	1240kg
Minimum Tractor Size	22kW (30hp)
Warranty (Years)	3

# Features

## KERB JUMP

“Kerb Jump” enables all three mower decks to be raised just off the ground without disengaging the PTO. This improves productivity by allowing the mower to traverse gravel driveways or paths and quickly turn at headlands.

## 3 YEAR WARRANTY

Snake comes with a market leading 3 year warranty on spindles and gearboxes.

## LAZERBLADEZ™

Snake is fitted with Trimax LazerBladez™, a unique blade system with a carefully engineered centre of gravity and distinctive tilt-forward blade design. Utilising the LazerBladez™ full length cutting edge, Snake produces a clean finish even when mowing at high ground speeds. LazerBladez™ are made with high grade alloy steel providing a significant increase in blade and bolt life for added safety and lower operating costs.

## FULL WIDTH ROLLERS

Full width rollers minimises scalping in extreme undulating conditions and allows mowing over curbsides, bunkers and potholes without blade strike.

# Options

## ROADKIT

The road kit option adds mudguards to the wheels and includes LED tail light clusters.

## REMOTE UNLOCK

The remote unlock option replaces the standard transport lock release rope with an electric actuator. This is operated by a push-button on the tractor.
